About the University

Parul University, Vadodara, stands today as one of Gujarat's leading private universities - a vibrant hub of higher education, healthcare, research, and innovation. Its journey began with the Parul Arogya Seva Mandal Trust, which first made its mark in the healthcare sector before establishing Gujarat's first self-financed Homeopathic Medical College in Ahmedabad in 1993. This marked the beginning of a legacy committed to quality and holistic learning.

Over time, the vision grew into the Parul Group of Institutions, offering programs in Engineering, Technology, Ayurveda, Nursing, Physiotherapy, Pharmacy, Management, Architecture, and more. The Government of Gujarat established Parul University through the Gujarat Private Universities (Second Amendment) Act, 2015, recognizing its growth and impact.

Starting with 16 institutes and about 50 programs, the University has grown into a multidisciplinary ecosystem of 38 constituent colleges and 21 faculties offering Diploma, UG, PG, and Ph.D. programs, including seven constituent colleges that function as teaching hospitals. Today, it is home to over 65,000 students and 8,000 staff, including 4,500+ international students from 75+ countries, on a 125-acre eco-friendly campus equipped with modern classrooms, laboratories, hostels, sports arenas, and cultural spaces.

Parul University has earned NAAC accreditation with the highest A++ grade (3.55 CGPA) in its very first assessment cycle, UGC Category-1 status with Graded Autonomy, and the prestigious Centre of Excellence status by the State Government. In NIRF 2025, it ranked among India's top 150 universities, 41st in Pharmacy, and within the top 50 for Innovation. It has achieved 5-star ratings in Pharmacy, Engineering, Management, and Applied Sciences, and 4-star ratings in University and Medical categories in GSIRF-2024; along with Diamond Ratings in QS I-GAUGE, with Platinum in Medicine, Engineering, and Pharmacy. It also made a global debut in the Times Higher Education Impact Rankings 2025, securing ranks among India's top 50 for Quality Education (SDG 4), Gender Equality (SDG 5), Good Health & Well-being (SDG 3), and Partnerships for the Goals (SDG 17). The hospitals hold NABH accreditation with Platinum Level Certification for Digital Health Standards, along with the NABL-accredited Molecular Laboratory at Parul Sevashram Hospital.

True to its mission, Parul University Parul University delivers holistic education, fosters innovation, and advances sustainable development. With its achievements, global collaborations, and commitment to quality, it stands as Gujarat's leading private university, setting new benchmarks in higher education.

Vision

To make successful academic quests through entrepreneurship, research, modernization and partnerships, thus making PU the finest educational destination.

Mission

Bridging the gap between academia and career, by paying emphasis on development programs for both students and staff. Promoting healthy relationships between PU's existing students, alumni, teachers and staff. Forming associations with other universities and corporate firms of

the nation and the world. Presenting state of art infrastructure with high quality and energized work ethics.

Quality Policy

To strive towards attaining the status of global educational university by setting higher benchmarks in quality education to deliver excellence in academics, research, innovation and extension activities through the implementation of best practices adopted by renowned academic institutes in teaching and learning processes by continuously monitoring the effectiveness of the University's practices, fostering a quality learning ecosystem through state-of- the-art facilities to enable the beneficiaries to enhance their skillsets and knowledge, with enhanced emphasis on comprehensive development.

About the Institute

Faculty of IT and Computer Science (FITCS) is not just an educational institution; it's a gateway to a world of innovation and opportunity. With a diverse range of programs including BCA, BSc-IT, IMCA, MCA, and MSc-IT, MSc-Data Science, FITCS offers students the chance to explore their passions and carve their path in the dynamic realm of technology. Our curriculum, enriched by state-of-the-art facilities and expert faculty, ensures that every student's journey is one of holistic growth and discovery. Through a blend of theoretical learning and practical application, we empower our graduates to excel in their chosen field, armed with the skills, knowledge, and confidence to make a meaningful impact.

Parul Institute of Computer Application stands as a center of excellence and innovation in computer education, consistently ranking among India's top institutes—39th in Outlook-ICARE and 50th in India Today Rankings for BCA programs. These achievements reflect the institute's commitment to quality education, research-driven learning, and a student-focused academic environment. With an industry-aligned curriculum and strong emphasis on practical exposure, the institute prepares students to meet the dynamic challenges of the IT sector.

Recognized with the Academic Excellence Award by the WAC Book of Records, the institute continues to uphold its legacy through dedicated faculty, advanced infrastructure, and a vision to nurture globally competent IT professionals. Currently, the institute caters to a vibrant academic community comprising 659 students in Semester 3 and 804 students in Semester 5, including 551 MCA, 77 M.Sc. IT, 75 Integrated MCA, and 17 Data Science students. The institute's strength lies in its highly qualified team of approx 73 faculty members supported by 3 research scholars, who collectively contribute to academic excellence and innovation.

The Institute offers students the opportunity to specialize in AI- ML, Big Data Analytics, Cybersecurity, Cloud Computing, and Full-Stack Web Development. Each specialization equips students with advanced technical knowledge, practical skills, and industry-relevant competencies. They gain hands-on experience designing, analyzing and deploying solutions in their chosen domain.

To enhance employability and placement readiness, the Faculty of IT and Computer Science conducts Impact Training focusing on aptitude, communication, and interview skills. Students also undergo Global Certification Training and participate in Mock Placement Drives to gain real-world recruitment experience. During Company Placement Drives, Refresher Sessions are organized to align with specific employer requirements.

Together, these initiatives form a comprehensive framework that bridges academic learning with industry expectations, empowering students to achieve professional excellence and contribute meaningfully to the ever-evolving world of technology.

Vision

To make students contribute in the area of Computer Applications by developing innovative Computing professionals to achieve excellent standards of quality education by keeping Pace with rapidly changing technologies, with a promising future to bring a new level of Inspiration among the students.

Mission

The objective of the Program is to provide students with a strong foundation in computer science fundamentals, programming languages, software development, database management, and other relevant areas of computer applications. It aims to equip students with practical skills, hands-on experience, and problem-solving abilities essential for success in the IT industry. Additionally, the program supports students in their personal and professional growth by offering career guidance, mentorship, and opportunities for specialization in areas such as software development, web design, system administration, and more.

Code of Conduct for Students of Parul University

1. All students of Parul University shall compulsorily display their University ID cards by wearing them around their neck. If any student is found without an ID card on any day, he/she will be marked absent for that day.
2. The University expects all students to behave in a manner befitting a prudent person.
3. Students shall be dressed in a presentable manner which does not invite criticism from any quarter.
4. Students shall strictly adhere to class timings and be punctual in attending all classes.
5. Students shall display cordial, genial, and respectful behaviour towards their teachers.
6. Students should be polite, cooperative, and respectful in dealing with the employees of the University.
7. Students shall maintain the highest order of cleanliness in the classroom as well as in the college premises.
8. Students should not indulge in boisterous behaviour at any place on the university campus.
9. Students shall follow the directions issued in accessing common places such as the library, canteen, sports fields, auditorium, gymnasium, swimming pool, etc.
10. Students shall strictly follow the schedules given by the class teacher regarding assignments, Weekly Tests, examinations, and practicals, and shall complete the assigned work within the duration specified by their teachers.
11. Students shall follow the instructions given by the teacher during practical sessions in relation to the use of laboratories, workshops, implements, and equipment.
12. Whenever students have queries regarding their performance, either from the class teacher or from any office in the College/University, they should follow the laid-down procedures and approach the concerned authority with utmost respect.
13. Students shall pay all prescribed fees at the stipulated times and avoid being penalized for non-payment.
14. Students shall not indulge in unfair means during the conduct of Weekly Tests or internal and external examinations.
15. Students shall not indulge in unlawful assembly at any place on the campus.
16. Any problem encountered by students should be brought to the notice of the authorities immediately available in the College/University.
17. Students should never take law into their own hands and must report any matter of lawlessness or harassment to the College Authorities immediately, who will initiate suitable action.
18. Students shall participate in all national events such as Independence Day and Republic Day organized by the University.

19. Students should not indulge in any activities that adversely affect the reputation of the University.
20. Students shall not consume prohibited substances such as alcohol, narcotics, marijuana, heroin, cocaine, etc., and shall not keep in their custody or hostel premises any illegal objects or materials such as firearms, missiles, bombs, narcotics, alcohol, or other intoxicants.
21. Smoking and chewing of tobacco are strictly prohibited on campus.
22. The UGC has directed all universities to strictly implement anti-ragging measures. It is the responsibility of the institutions within the University to ensure the safety of newcomers and protect them from any incidents that may harm their physical or mental well-being. Any student found involved in ragging will face strict disciplinary action as per the *UGC Regulations on Curbing the Menace of Ragging in Higher Educational Institutions, 2009*.
23. Any violation of the provisions mentioned above will be viewed as an act of misconduct. The University, after conducting a thorough probe into such incidents, shall initiate strict disciplinary action against the delinquent students.

Code of Conduct for Department

As we embark on this journey together, it is essential that we maintain a positive and respectful learning environment for everyone. To ensure a harmonious and productive academic community, we have established a Code of Conduct that outlines the expected behavior of all FITCS Students.

1. Wearing an I-Card is Mandatory.
2. Treat fellow students, faculty, and staff with respect and courtesy.
3. Do not engage in any type of misconduct or academic cheating.
4. Attend classes regularly and on time; 75% attendance is Mandatory, else the student will be detained and must repeat the whole Semester again.
5. Fill in the leave form (Available with Office Assistants) before taking leave and get it signed by your MFT/Mentor and submit the duly signed leave form to the Office Assistant for seeking Attendance.
6. Note: only 5 days leave will be sanctioned per Semester.
7. If a student is caught using Mobile during Lab or Lecture Hours for the first time, the student's mobile will be taken in custody for 3 days with an apology.
8. For second offense of using mobile during Lab or Lecture Hours, the mobile will be taken in custody for 6 days and Parents will be called to meet the Dean/Principal/HOD.
9. If found shooting or sharing any unofficial video/photo, student shall be suspended for 1 week, phone in custody for 15 days, and Parents will be called.
10. Cheating in any Exam will lead to disqualification from the remaining Subject papers.

For questions or concerns regarding the code of conduct, contact HOD (BCA).

Code of Discipline

- **Academic Integrity:** Be honest in all academic work; avoid plagiarism and cheating.
- **Respectful Behavior:** Treat everyone with respect; no discrimination, harassment, or bullying.
- **Attendance:** Attend classes regularly and participate actively.
- **Professionalism:** Exhibit professionalism in behavior, attire, and communication.
- **Resource Use:** Use university resources responsibly.
- **Community Engagement:** Participate in community service.
- **Respect:** Treat everyone with respect and dignity.
- **Compliance:** Follow all laws and university policies.
- **Integrity:** Maintain honesty in all activities.
- **Responsibility:** Be accountable for one's actions.

Unaccepted Behaviors

- **Dishonesty:** Plagiarism, cheating, or any form of academic fraud.
- **Disrespect:** Discrimination, harassment, bullying, or any form of disrespect.
- **Absenteeism:** Frequent unexcused absences.
- **Unprofessionalism:** Inappropriate attire, unpunctuality, irresponsible communication.
- **Resource Misuse:** Unauthorized or unethical use of university resources.
- **Disruption:** Actions that disrupt educational environment.
- **Substance Abuse:** Use or possession of illegal drugs or alcohol on campus.
- **Violence:** Any form of physical violence or threats.
- **Theft:** Stealing or damaging university or personal property.
- **Cyber Misconduct:** Unauthorized access or misuse of digital resources.
- **Insubordination:** Defying university authority.
- **Unauthorized Gatherings:** Unapproved gatherings or protests.
- **Unethical Behavior:** Actions compromising university ethics.

Disciplinary Measures

- **Warnings:** Verbal or written warnings for minor infractions.
- **Probation:** Specific conditions for improvement.
- **Detention from Academics:** Temporary restriction from attending.
- **Suspension:** Temporary suspension from university services.
- **Expulsion:** Permanent removal for serious violations.

About the Department

Parul Institute of Computer Applications (PICA) stands as a center of academic excellence, innovation, and technological advancement. More than an institution of higher learning, PICA serves as a platform where aspiring professionals are nurtured into skilled, industry-ready graduates capable of thriving in a rapidly evolving digital world.

Offering a comprehensive portfolio of programs, including BCA, B.Sc. IT,IMCA . the institute provides students with diverse opportunities to develop expertise across various domains of computing and information technology. The curriculum is thoughtfully designed to align with emerging industry trends, fostering critical thinking, technical proficiency, creativity, and innovation.

Supported by modern infrastructure, advanced laboratories, and a team of dedicated faculty members, PICA creates an engaging learning environment that encourages intellectual growth and practical exploration. Through a seamless integration of academic rigor, hands-on experience, research opportunities, and industry exposure, the institute empowers students to transform their potential into professional excellence.

At PICA, education extends beyond classrooms, preparing learners to become responsible professionals, lifelong learners, and future leaders who can drive technological progress and create a meaningful impact on society.

Details about NEP-2020

National Education Policy 2020 (NEP-2020) heralds a transformative vision for the Indian education landscape, addressing the evolving needs of the 21st century. From the perspective of the BCA/B.Sc. IT Department, the National Education Policy 2020 (NEP 2020) brings transformative reforms that align with the Sustainable Development Goals (SDGs) and aim to enhance quality, flexibility, and innovation in IT education.

The BCA/B.Sc. IT Department aligns with the vision of the National Education Policy 2020 (NEP 2020) by promoting quality, flexibility, and innovation in IT education, in harmony with the Sustainable Development Goals (SDGs). The department adopts a multidisciplinary approach, integrating technology with management and social sciences to nurture creativity, ethics, and holistic learning (SDG 4: Quality Education). A flexible curriculum with multiple entry and exit options and electives in emerging technologies encourages lifelong learning and adaptability. Emphasis on research, innovation, and incubation fosters creativity and supports SDG 9: Industry, Innovation & Infrastructure. Through experiential learning, internships, and industry tie-ups, students gain real-world exposure aligned with SDG 8: Decent Work & Economic Growth. Continuous faculty development programs ensure up-to-date pedagogy and skill enhancement, maintaining academic excellence and preparing graduates for a dynamic digital future.

Key Features of NEP 2020

- Flexibility in Learning

- Early Childhood Care and Education (ECCE)
- Teacher Training and Professional Development
- Assessment Reforms
- Higher Education Restructuring
- Technology Integration
- Equity and Inclusion
- Autonomy to Educational Institutions
- Promotion of Indian Language

Program Educational Objectives (PEOs)

- The statements below indicate the career and professional achievements that the **BCA, BCA (Hons) curriculum** enables graduates to attain.

PEO Number	Program Educational Objective Description
PEO1	To prepare graduates who will be effective professionals in identifying, analyzing and developing ICT applications for various sectors of society with their proficient technical skills.
PEO2	To prepare socially and ethically responsible graduates who can work in a team or as an individual with proven abilities and expertise.
PEO3	To prepare graduates with life-long learning attitude and strong communication skills in tandem with analytical and conceptual expertise.

Program Outcomes (PLOs)

- Program outcomes are statements conveying the intent of a program of study.

PLO Number	Program Outcome Description
PLO1	**Computational Knowledge** – Apply knowledge of computing fundamentals, computing specialization, mathematics, and domain knowledge appropriate for the computing specialization to the abstraction and conceptualization of computing models from defined problems and requirements. Utilize the fundamental knowledge of computer, information, and technology for fulfilling social and industrial needs.
PLO2	**Problem Analysis & Design/Development of Solutions** – Identify, formulate, research literature and solve complex computing problems reaching substantiated conclusions using fundamental principles of mathematics, computing sciences, and relevant domain disciplines. Design and evaluate solutions for complex computing problems and systems, components, or processes that meet specified needs with appropriate consideration for public health and safety, cultural, societal, and environmental considerations. Compare, classify, and analyze the data for creating and developing different algorithms.
PLO3	**Project Management and Finance** – Demonstrate knowledge and understanding of the computing and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and multidisciplinary environments.
PLO4	**Communication Efficacy** – Communicate effectively with the computing community and with society at large about computing activities by being able to comprehend and write effective reports, design documentation, make effective presentations, and give and understand clear instructions.
PLO5	**Professional Ethics** – Implement and commit to professional ethics and cyber regulations, responsibilities, and norms of professional computing practice.
PLO6	**Innovation and Entrepreneurship** – Identify a timely opportunity and use innovation to pursue that opportunity to create value and wealth for the betterment of the individual and society at large. Enable students to become entrepreneurs by integrating innovation in science and technology. Cultivate the skills for entrepreneurship by integrating innovation in science and technology and become lifelong learners.

Program Specific Learning Outcomes (PSOs)

- Program Specific Learning Outcomes

PSO Number	Program Specific Outcome Description
PSO1	Demonstrate proficiency in designing, developing, testing, and deploying software applications using various programming languages, development frameworks, and software engineering methodologies.
PSO2	Successfully complete a series of project-based assignments that integrate knowledge, skills, and competencies acquired throughout the program to solve real-world IT challenges or address specific industry needs.

Syllabus of Courses

a) Course Name: Mathematical Aptitude

b) Course Code: 00019101SE01

c) Prerequisite: Basic numeracy skill

d) Rationale : Mathematical aptitude refers to the ability to reason, think critically, and apply mathematical principles to solve problems and make sense of the world around us.

e) Course Learning Objective:

OBJ	Overview
OBJ1	Understanding and applying number theory concepts such as HCF, LCM, roots, ratios, and proportions.Mastering algebraic techniques including permutations, combinations, logarithms, and equations.
OBJ2	Building proficiency in arithmetic topics such as averages, percentages, profit-loss, interest, and partnership calculations.
OBJ3	Gaining speed and accuracy in solving real-life mathematical problems involving time, work, distance, and mixtures.
OBJ4	Applying concepts of progression (AM, GM, HM), mensuration, and probability in practical scenarios.
OBJ5	Interpreting and analyzing data through tabular and graphical representations including bar graphs, pie charts, and line charts.
OBJ6	Understanding and computing statistical measures such as mean and standard deviation for grouped and ungrouped data.

f) Course Learning Outcome:

CO	Description

CO1	Analyse and interpret mathematical problems, devise appropriate strategies, and apply relevant mathematical concepts and techniques to find solutions.
CO2	Comprehend and manipulate numerical information effectively, make accurate calculations, and interpret numerical data in various contexts.
CO3	Think critically and logically, recognize patterns and relationships, and construct logical arguments using mathematical principles.
CO4	Apply these concepts and techniques to solve real-world situations.

g) Teaching and Examination Scheme

Teaching Scheme					Examination Scheme

Syllabus of Courses

a) Course Name:Fundamentals of Programming using C (Theory)

b) Course Code: 05010101DS01

c) Prerequisite: Basic approach of problem solving methods.

d) Rationale : The objective of this course is to familiarize students with concepts of fundamentals of information technology along with developing the logic for solving a given problem using the procedure oriented language C for construction of code

e) Course Learning Objective:

OBJ	Overview
OBJ1	To provide foundational knowledge of Information Technology, including computer architecture, operating systems, software applications, and data communication, enabling students to understand and work with computing systems effectively.
OBJ2	To develop logical and algorithmic thinking through the use of the C programming language, focusing on structured programming techniques for solving real-world problems, writing efficient code, and building a strong foundation for future programming and development skills.

f) Course Learning Outcome:

CO	Description
CO1	Interpret syntax and semantics of c programming language.
CO2	Develop, execute and debug programs.
CO3	Display output on the console.
Co4	Explain the differences between syntax errors, runtime errors, and logic errors

g) Teaching and Examination Scheme

(c) Programming with C By K.R. Venugopal and Sudeep R Prasad — Tata McGraw-Hill Education

(d) Let Us C By Yeshavant Kanetkar — BPB Publications

Syllabus of Courses

a) Course Name:Fundamentals of Programming using C (Practical)

b) Course Code: 05010101DS02

c) Prerequisite:Basic approach of problem solving methods.

d) Rationale : The objective of this course is to familiarize students with concepts of fundamentals of information technology along with developing the logic for solving a given problem using the procedure oriented language C for construction of code.

OBJ	Overview
OBJ1	To develop the ability to write, compile, debug, and execute programs using the C programming language for solving real-life problems through a structured, modular, and logical approach.
OBJ2	To implement and practice fundamental programming constructs such as data types, operators, control structures, functions, arrays, pointers, and file handling through hands-on coding exercises and lab assignments.

e) Course Learning Outcome:

CO	Description
CO1	To demonstrate given problem through flow chart and algorithm.
CO2	To develop,basic understating of c programming language structure.
CO3	To create problem solving codes using c constructs.
CO4	To enhance logical and analytical thinking using c language concepts.
CO5	To apply array, pointer and structure concepts in programming.
CO6	To design and develop programs for file handling.

f) Teaching and Examination Scheme

SEE - Semester End Examination, **T** - Theory, **P** - Practical

g) Course Content:

W - Weightage (%), **T** - Teaching hours

Sr.	Topics
1	**Write the Following Programs:** • Find Add Two Integers • Find Floating Point Numbers • Find ASCII Value of a Character • Find Quotient and Remainder
2	**Write the Following Programs:** • Swap Two Numbers • Find Area of Circle • Find Simple Interest • Find if a Number is Even or Odd

3	**Write the Following Programs:** • Find Gross Salary of an Employee • Sum of 5 Subjects and Find Total and Percentage • Find Roots of a Quadratic Equation
4	**Write the Following Programs:** • Find Sum of Natural Numbers • Find Factorial of a Number
5	**Write the Following Programs:** • Print Fibonacci Series • Find GCD of Two Numbers • Find LCM of Two Numbers
6	**Write the Following Programs:** • Menu-driven Program Using Switch Case to Create Calculator • Menu-driven Program Using Switch Case to Calculate: – Area of Circle – Area of Square – Area of Sphere
7	**Write the Following Programs:** • Check Whether a Number is Palindrome or Not • Find Prime Numbers Between Two Intervals • Check if Number is Perfect • Create Pyramid and Structure
8	**Write the Following Programs of Array:** • Calculate Sum of Elements of 1D Array Using Function • Find Factorial of a Number Using Function • Add Two 2D Arrays Using Function • Print and Display Records of Employee Details Using Array of Structure

9	**Write a Program Using Structure:** • Create a Structure 'Student' Containing Name and Roll. Ask User for Name and Roll in `main()` Function, Pass it to Another Function, and Display the Information There.
10	**Write the Following Programs of Pointers:** • Access Addresses of Different Types of Variables Using Pointers • Swap Two Integers Using Pointers • Compute Area and Perimeter of Rectangle Using Pointers as Parameters • Store and Display Values of an Array Using Pointers
11	**WAP to Display Marks:** • Display Marks of 3 Subjects for 3 Students and Calculate Total Subject-wise and Grand Total
12	**WAP Using Structure and Function:** • Display ID, Name, and Percentage of a Student Using Structure and Function (Pass by Value)
13	**Write a C Program to Read Strings:** • Read a String from Terminal Using `scanf()` and `gets()`

Syllabus of Courses

a) Course Name: Fundamentals of Web Development (Theory)

b) Course Code: 05010101DS03

c) Prerequisite: Basic approach of Web Development.

d) Rationale : The objective of this course is to familiarize students with concepts of fundamentals of web development and website designing.

e) Course Learning Objective:

OBJ	Overview
OBJ1	To familiarize students with the foundational concepts of web development, including structure, functionality, and client-server interactions.
OBJ2	To develop practical skills in website designing using modern tools and techniques to create responsive and user-friendly web interfaces.

f) Course Learning Outcome:

CO	Description
CO1	Understand fundamentals of Internet and World Wide Web.
CO2	Create web pages using Hyper Text Markup Language.
CO3	Use cascading style sheet for beautification and uniformity on web pages.
CO4	Design and Develop interactive Webpages using JavaScript.
CO5	Make Students able to learn how to hosting website on the Internet.

No.	Programs
1	**Write a HTML code of the following:** • Print your name • Set Title • Bold, italic, underline and break tag • Print names in different colors • Different style font
2	**Write a HTML code of the following:** • Use different font size • Underlined, italic and bold
3	**Write a HTML code of the following:** • Different heading size • Use superscript • Lists with its types

No.	Programs
4	**Write a HTML code of the following:** • Horizontal lines and Preformatted text • Hyper Links: – Link to a search engine – Link at the bottom of the page – Link at the top of the page – Hyperlinks on mail • Working with Image: – Display Image – Image with border – Display the image in the browser
5	**Write a HTML code of the following:** • CSS: – CSS Comment – Inline stylesheet – Internal stylesheet – External stylesheet • Font property by using external stylesheet • CSS Selector: – ID Selector – Class Selector – HTML Selector • Insert an image via CSS

No.	Programs
6	**Write a HTML code of the following:** • Text property by using inline stylesheet • List property by using external stylesheet • Margin property by using internal stylesheet • Padding property by using external stylesheet • Border property by using external stylesheet
7	**Write a HTML code of the following:** • Border • Border only 3 sides • Thumbnail • Hyperlink CSS Style
8	**Write a HTML code of the following:** • Table • Table formatting with background color • Web page • Validation

Syllabus of Courses-VAC

a) Course Name:Climate Change & Sustainable Environment

b) Course Code: 11011401VA01

c) Prerequisite: Shall have the basic knowledge about environmental studies.

d) Rationale : Will understand the basic interface between climate change and sustainability

e) Course Learning Objective:

OBJ	Overview
OBJ1	To enable students to understand the fundamental relationship between climate change and sustainability.
OBJ2	To develop awareness of how climate change impacts sustainable development goals and global environmental strategies.

f) Course Learning Outcome:

CO	Description
CO1	Identify the complexity and operations of governance systems and processes on international, national, and local levels.
CO2	Explain the differences between government and governance and the various ideas and meanings attached to the goal of sustainable development.
CO3	Critically analyze policy-making processes in regard to sustainability issues.
CO4	Apply high-quality written and verbal communication skills.
CO5	Work effectively in a team and in tutorial or workshop situations.

g) Teaching and Examination Scheme

(d) The Uninhabitable Earth: Life After Warming (TextBook) By David Wallace-Wells

Syllabus of Courses : Minor

a) Course Name:Basics of Cyber Security and Forensic

b) Course Code: 05010101CF01

c) Prerequisite: Basic Cyber Security And Forensics.

d) Rationale : The objective of this course is to Aware Students About Cyber Security, Advantages Of Cyber Security And To Gain The Knowledge In This Field.

e) Course Learning Objective:

OBJ	Overview
OBJ1	To create awareness among students about the importance of cyber security and its various advantages in protecting digital information.
OBJ2	To equip students with foundational knowledge and practical understanding of key concepts in the field of cyber security.

f) Course Learning Outcome:

CO	Description
CO1	To Develop the Basic Knowledge Of Computer Networks.
CO2	Develop The Knowledge Of Cyber Security And Get To Know About Its Future.
CO3	To develop the knowledge on Cyber Crimes and securing ideas.
CO4	To improve the capability on cyber forensic investigation.
CO5	To enhance the cybersecurity career and hands on application.

h) Course Content:

W - Weightage (%), **T** - Teaching hours

Sr.	Topics	W	T
1	**Introduction To Basic Networking Fundamentals:** In this chapter students will learn the basics of networking, like what is networking, IP address, MAC address, TCP/IP model & UDP model, optical fibers, and ISP.	16	10
2	**Introduction To Basic Cyber Security Fundamentals:** The chapter will cover what is cyber security, advantages of cyber security, how to make a career in cyber security, different cyber terms like hacking, penetration testing, forensics, cyber security analyst, cloning, etc.	16	10
3	**Cyber Crimes (i):** This chapter will introduce different types of cyber crimes around the world, and how to be safe from them.	20	11
4	**OSINT Basics:** This chapter will show students the basics of OSINT alongside real-time uses. It also leads to forensics investigation knowledge for the learners.	25	15
5	**Cyber Security: The Future:** This will explain why cyber security is going to be a revolutionary field in the future, along with guidance on making a proper career in cyber security.	23	14
	Total	100	60

i) Reference Books:

(a) Computer Networks (TextBook) By Andrew Tanenbaum — Pearson Education — 5th Edition

(b) Introduction to Cyber Security: Guide to the world Cyber Security (TextBook) By Anand Shinde — Notion Press — 1st, Pub. Year 2021

(c) The Hacker Playbook 2: Practical Guide to Penetration Testing By Peter Kim — Createspace Independent Pub — 1st, Pub. Year 2015

(d) THE ART OF INVISIBILITY By Kevin Mitnick — Back Bay Books — 2, Pub. Year 2019

(e) The Basics of Hacking and Penetration Testing By Patrick Engebretson — Syngress — 2, Pub. Year 2013

Syllabus of Courses : Minor

a) Course Name: Marketing Management

b) Course Code:06010101DM01

c) Prerequisite: A basic approach to problem-solving methods.

d) Rationale : Marketing studies gives a unique competitive advantage: You can learn how to promote yourself and your work. After all, marketing studies helps you understand the true meaning of value: The value of the product and the value of the person or brand that delivers said product.

e) Course Learning Objective:

OBJ	Overview
OBJ1	To equip students with the skills to effectively promote themselves and their work in a competitive market environment.
OBJ2	To develop an understanding of the concept of value in marketing — both in terms of the product and the brand or individual delivering it.
OBJ3	To provide a strategic advantage by fostering analytical and promotional abilities that enhance personal and professional branding.

f) Course Learning Outcome:

CO	Description
CO1	List key elements of a marketing plan.
CO2	Explain the relationship between marketing and overall business strategy.
CO3	Develop a pricing strategy for a new product based on market research.
CO4	Evaluate market segmentation strategies for a diverse target market.

CO5	Assess the impact of a marketing campaign on brand equity and customer loyalty.
CO6	Design a comprehensive marketing plan for a company entering a new international market.

(b) Marketing Management By Philip Kotler — Current

(c) Marketing management By Tapan panda — Excel Books

(d) Marketing Management – A South Asian Perspective By Kotler. Keller, Koshy and Jha — Pearson Education

(e) Rajan Saxena: Marketing Management; Tata MC Graw-Hill (India Edition)

Syllabus of Courses : Minor

a) Course Name:Digital Camera Mechanism

b) Course Code: 18010201PP01

c) Prerequisite: 1) Understanding of Basic Computer Skills 2) Media Literacy 3) Creative Vision 4) Passion to learn

d) Rationale : Taking a basic photography course can be incredibly helpful for anyone looking to improve their photography skills. Not only will you learn about the technical aspects of photography, but you'll also gain a greater appreciation for the art form and discover your own unique style.

e) Course Learning Objective:

OBJ	Overview
OBJ1	To equip students with foundational technical knowledge of photography, including camera functions, lighting, and composition.
OBJ2	To enhance students' artistic understanding and help them explore and develop their own unique photographic style.

f) Course Learning Outcome:

CO	Description
CO1	Improved technical skills: Basic photography classes will teach you the fundamentals of camera operation, exposure, and lighting. This will help you understand how to use your camera to its full potential and create images that are properly exposed and well-lit.
CO2	Greater artistic expression: Basic photography classes will also help you develop your creative vision and explore different styles of photography. By learning about composition, color, and perspective, you'll be able to create images that are not only technically proficient but also visually compelling.

(a) Basic Photography By Michael Langford — Focal Press

(b) Beginner's Photography Guide 2nd Edition: The Ultimate Step-by-Step Manual for Getting the Most from your Digital Camera, By Gatcum, C. — DK Publishers — 2nd Edition, Pub. Year 2016

(c) The Photographer's Eye By Michael Freeman

Syllabus of Courses : Minor

a) Course Name: Fundamentals of Digital Videography

b) Course Code: 18010201VV01

c) Prerequisite: 1) Understanding of Basic Computer Skills 2) Media Literacy 3) Creative Vision 4) Passion to learn

d) Rationale : The course introduce students to the key creative and conceptual principles for working with video and moving images. With introductions to digital video cameras, sound recording, and editing software, the course enables you to develop shooting and editing techniques relevant media arts contexts.

e) Course Learning Objective:

OBJ	Overview
OBJ1	To introduce students to the foundational creative and conceptual principles of working with video and moving images.
OBJ2	To familiarize students with essential tools such as digital video cameras, sound recording devices, and editing software.
OBJ3	To develop students' practical skills in shooting and editing techniques applicable to various media arts contexts.

f) Course Learning Outcome:

CO	Description
CO1	Understand the fundamental technologies involved in working with digitized moving images, sound recording, and editing setups.
CO2	Apply media production skills to effectively disseminate meaningful stories.
CO3	Use video and sound creatively to provoke emotions, encourage reflection, and stimulate critical thinking in diverse audiences.

g) Teaching and Examination Scheme

Teaching Scheme					Examination Scheme					
Lecture Hrs/Week	**Tutorial Hrs/Week**	**Lab Hrs/Week**	**Seminar Hrs/Week**	**Credit**	**Internal Marks**			**External Marks**		**Total**
					T	CE	P	T	P	
-	1	6	-	4	-	20	20	-	60	100

SEE - Semester End Examination, **T** - Theory, **P** - Practical

h) Course Content:

W - Weightage (%), **T** - Teaching hours

Sr.	Topics	W	T
1	**Unit 1:** • **Exposure:** What we need to explore in an image through a digital camera sensor • **Aperture:** How it corresponds with the amount of light • **Shutter Speed:** How shutter speed and time exposure work • **ISO:** Determines the sensitivity of the sensor	55	50
2	**Unit 2: Sensor** • Types of sensors • How sensors work • Importance of sensors • CCD – Charge Coupled Device • CMOS Sensor • Various sensor sizes	45	40
	Total	100	90

i) Reference Books:

(a) Digital Video Processing By A. Murat Tekalp — Pearson — 2nd, Pub. Year 2015

(b) The Painted Face: India's Popular Cinema By Chindananda Dasgupta — Roli Books

Syllabus of Courses : Minor

a) Course Name: Character Design

b) Course Code:18010501AN01

c) Prerequisite: 1) Understanding of Basic drawing Skills 2) design interpretation 3) Creative Vision 4) Passion to learn

d) Rationale : They can understand apply the basics of Characters designing. Importance of Characters designing in a visual form in Story-telling. They create the usage and importance of Characters

e) Course Learning Objective:

OBJ	Overview
OBJ1	To help students understand and apply the fundamental principles of character design.
OBJ2	To explore the importance of character design in visual storytelling and narrative development.
OBJ3	To enable students to create characters with purposeful design, understanding their role and impact in various media contexts.

f) Course Learning Outcome:

CO	Description
CO1	Understand the art of Character Design.
CO2	Understand the purpose of Character designing based on the story & setting.
CO3	Understand, learn, and apply technique and software skills in character designing.

g) Teaching and Examination Scheme

Teaching Scheme					Examination Scheme					
Lecture Hrs/Week	Tutorial Hrs/Week	Lab Hrs/Week	Seminar Hrs/Week	Credit	Internal Marks			External Marks		Total
					T	CE	P	T	P

h) Course Content:

W - Weightage (%), **T** - Teaching hours

Sr.	Topics	W	T
1	**Unit 1 – Characters: Types & Patterns** • What is a story? What are the characters written • Sketching characters, different styles and anatomy • Clarity of story through characters	40	36
2	**Unit 2 – Storyboarding** • Introduction to storyboarding • Point of view • Character costume based on geographical location • Character development & design • Difference between cartoon & caricature	60	54
	Total	100	90

i) Reference Books:

(a) Character Animation Crash Course By Eric Goldberg — Silman-James Press

(b) Character Development An excerpt from A writing assignment By Lance Truong — St. Paul College

(c) Design Drawing By Francis D. K. Ching — Wiley India Pvt. Ltd.

(d) Prepare to Board! Creating Story and Characters for Animated Features and Shorts By by Nancy Beiman — Focal Press

Syllabus of Courses : Minor

a) Course Name:Artificial Intelligence & Machine Learning - I (Theory)

b) Course Code: 05010101AM01

c) Prerequisite: Basic knowledge of Artificial Intelligence and Machine learning.

d) Rationale: To review and strengthen important mathematical concepts required for AI and ML.Introduce the concept of learning patterns from data and develop a strong theoretical foundation for understanding state-of-the-art machine learning algorithms.

e) Course Learning Objective:

OBJ	Overview
OBJ1	To review and strengthen foundational mathematical concepts essential for the study and application of Artificial Intelligence and Machine Learning.
OBJ2	To introduce the concept of learning from data and develop a strong theoretical understanding of state-of-the-art machine learning algorithms.

f) Course Learning Outcome:

CO	Description
CO1	Explain the fundamental concepts and applications of artificial intelligence and machine learning.
CO2	Analyze various machine learning techniques and their suitability for different problems.
CO3	Apply linear regression techniques to analyze and predict relationships between variables.
CO4	Evaluate the effectiveness of logistic regression and clustering methods in solving classification and grouping problems, respectively.

g) Teaching and Examination Scheme

Teaching Scheme					Examination Scheme					
Lecture Hrs/Week	**Tutorial Hrs/Week**	**Lab Hrs/Week**	**Seminar Hrs/Week**	**Credit**	**Internal Marks**			**External Marks**		**Total**
					T	CE	P	T	P

W - Weightage (%), **T** - Teaching hours

Sr.	List of Practical
1	Implementation of Basic Program in Python – I: WAP Volume of Cuboid, WAP Volume of Cube, WAP Area of Rectangle, WAP Area of Circle, Simple Python program to convert Celsius to Fahrenheit.
2	Implementation of Basic Program in Python – II (Operator Uses): Arithmetic Operators, Comparison (Relational) Operators, Assignment Operators, Logical Operators, Bitwise Operators, Membership Operators, Identity Operators.
3	Implementation of Basic Program in Python – III (Conditional Operation): if statement, if-else statement, if-elif-else ladder.
4	Implementation of Basic Program in Python – IV (Loop Operation): while loop, for loop, nested loops.
5	Implementation of Function Programs in Python.
6	Implementation of Math Functions in Python.
7	Implementation of Adding New Functions: Definitions and uses, Parameters and arguments, Variables and parameters as local.

Sr.	List of Practical
8	Implementation of Fruitful Functions and Void Functions, Recursion Function.
9	Implementation of List Operations: List slices, List methods, map(), filter(), reduce(), deleting elements, List arguments.
10	Implementation of Python Tuples: Accessing values in tuples, update and delete tuples, basic tuple operations.
11	Implementation in Python to Create and Access Values in a Set: Set methods, frozenset.
12	Implementation in Python to Perform File Operations: Opening, closing, and read/write operations in a file.
13	Implement Matplotlib Operations.

Syllabus of Courses : AEC

a) **Course Name**: Communication Skills-1

b) **Course Code**: 00019301AE04

c) **Prerequisite**: Knowledge of English Language till 12th standard

d) **Rationale** :This course builds basic communication competence in grammar, reading, writing, and speaking for academic and professional contexts.

e) **Course Learning Objective**:

OBJ	Overview
OBJ1	Knowledge of LSRW is essential for Students

f) **Course Learning Outcome**:

CO	Description
CO1	Understand the importance of creative and critical thinking.
CO2	Develop four basic skills (LSRW)
CO3	Expand vocabulary with proper pronunciation.
CO4	Comprehend the basics of English grammar.
CO5	Read & write effectively for a variety of contexts.
CO6	Develop confidence in speaking skills.

g) Teaching and Examination Scheme

Teaching Scheme					Examination Scheme

SEE - Semester End Examination, **T** - Theory, **P** - Practical

h) Course Content:

W - Weightage (%), **T** - Teaching hours

Sr.	Topics	W	T
1	**Time Sense (Using Timeline) & Introduction to Phonetics** • Concept of time sense and tenses • Present, past, and future tense forms • Use of timelines to explain tenses • Introduction to Phonetics and IPA • English Speech Sounds	13	2
2	**Articles, Determiners & Prepositions** • Types and rules of articles and determiners • Classification of prepositions • Usage rules and exceptions	13	2

Sr.	Topics	W	T
3	**Subject–Verb Agreement** • Basic rules of subject–verb agreement • Agreement with special subjects • Common errors in agreement	13	2
4	**Active & Passive Voice** • Concept and structure of voice • Rules for active–passive conversion • Voice usage across tenses	13	2
5	**Meetings & Greetings** • Types of greetings and meetings • Language used in meetings • Meeting etiquette	7	1
6	**Just A Minute (JAM)** • Purpose and structure of JAM • Elements of effective speaking • Common speaking barriers	7	1
7	**Story Writing Using Hints** • Understanding given hints • Story structure and sequencing • Use of tenses and connectors	13	2
8	**Notice, Memo & Circular** • Purpose and format • Language and tone	7	1

Sr.	Topics	W	T
9	**Paragraph Development** • Elements of a paragraph • Unity and coherence • Types of paragraphs	7	1
10	**Reading Comprehension (Level of Difficulty – Basic)** • Types of reading skills • Understanding main ideas and details • Vocabulary in context	7	1
	Total	**100**	**15**

i) Practical List

Sr.	Practical Exercise
1	**Time Sense (Using Timeline) & Introduction to Phonetics** • Timeline-based sentence construction activity. • Tense identification exercise. • Error correction task. • Pronunciation practice using IPA symbols and English speech sounds.
2	**Articles, Determiners & Prepositions** • Exercises on correct usage of articles and determiners. • Identification and classification of prepositions. • Sentence completion and error correction activities.
3	**Subject–Verb Agreement** • Practice on basic subject–verb agreement rules. • Exercises involving special subjects. • Error identification and correction.

Sr.	Practical Exercise
4	**Active & Passive Voice** • Conversion of active voice to passive voice. • Conversion of passive voice to active voice. • Voice transformation across different tenses.
5	**Meetings & Greetings** • Role-play on formal and informal greetings. • Mock meeting activities. • Practice of meeting etiquette and communication.
6	**Just A Minute (JAM)** • One-minute speech on assigned topics. • Practice for fluency and confidence. • Peer evaluation and feedback session.
7	**Story Writing Using Hints** • Story writing using given hints. • Organizing ideas in logical sequence. • Use of appropriate tenses and linking words.
8	**Notice, Memo & Circular** • Drafting notices for different situations. • Writing professional memos. • Preparing official circulars using standard format.
9	**Paragraph Development** • Writing paragraphs on given topics. • Practice on unity and coherence. • Developing descriptive, narrative and argumentative paragraphs.

Sr.	Practical Exercise
10	**Reading Comprehension (Level of Difficulty – Basic)** • Reading comprehension exercises. • Identifying main ideas and supporting details. • Vocabulary building through contextual understanding.

Syllabus of Courses : Elective-I for CSF, DM, AI-ML, Photo, Video, Animation

a) Course Name: Internet of Behaviour

b) Course Code:06010101UE04

c) Prerequisite: Basic Computer knowledge and Internet Surfing.

d) Rationale : Establishes foundational understanding: Provides students with a clear definition and historical context of IoB, laying the groundwork for further exploration. Identifies key technologies: Introduces students to the essential technologies and methodologies used in IoB, enabling them to grasp the technical aspects of the field. Highlights potential applications: Illustrates the potential of IoB across various domains, motivating students to delve deeper into specific areas of interest.

e) Course Learning Objective:

OBJ	Overview
OBJ1	Establish a foundational understanding of IoB by exploring its definition, origin, and historical context.
OBJ2	Introduce key technologies and methodologies that underpin IoB to help students grasp its technical framework.
OBJ3	Highlight diverse applications of IoB across industries to encourage deeper exploration of domain-specific use cases.

f) Course Learning Outcome:

CO	Description
CO1	Formulate strategies for addressing ethical and legal challenges in IoB.
CO2	Critique ethical considerations in behavior tracking and analysis.
CO3	Apply tools and methods for analyzing behavioral data in various scenarios.
CO4	Compare different techniques for behavioral data collection.

CO5	Explain the fundamental principles of IoB.

g) Teaching and Examination Scheme

Author: Cuno Pfister

Syllabus of Courses : Elective-I for CSF, DM, AI-ML, Photo, Video, Animation

a) Course Name: First Aid and Life Support

b) Course Code:09010101UE01

c) Prerequisite: Shall have the basic knowledge about anatomy and physiology of human body.

d) Rationale : Will gain the basic knowledge about first Aid and life sciences.

e) Course Learning Objective:

OBJ	Overview
OBJ1	To enable students to gain basic knowledge of First Aid and foundational concepts in Life Sciences, promoting awareness and preparedness for emergency health situations.

f) Course Learning Outcome:

CO	Description
CO1	Understand the importance of first aid in emergency situations.
CO2	Demonstrate the ability to assess the scene of an emergency.
CO3	Identify and prioritize different types of injuries and illnesses.
CO4	Learn and practice CPR techniques for adults, children, and infants, and understand the use of automated external defibrillators (AEDs).
CO5	Understand the importance of infection control in wound care.
CO6	Identify signs and symptoms of shock and provide appropriate first aid for burns and other injuries.

Syllabus of Courses : Elective-I for CSF, DM, AI-ML, Photo, Video, Animation

a) Course Name: Ecosystem and Natural Resources

b) Course Code:11011401UE02

c) Prerequisite: Shall have understanding of environmental science, ecology, and Natural Resource.

d) Rationale : To develop the knowledge among students about ecosystems and natural resources and their importance for sustaining the balance between environmental health and human development.

e) Course Learning Objective:

OBJ	Overview
OBJ1	To develop knowledge about ecosystems and natural resources, and their ecological significance.
OBJ2	To emphasize the importance of sustaining environmental balance for healthy ecosystems and responsible human development.

f) Course Learning Outcome:

CO	Description
CO1	Grasp ecosystem structures and functions to predict and understand ecological interactions and outcomes.
CO2	Develop expertise in biodiversity conservation techniques and understand their applications in maintaining ecosystem health.
CO3	Acquire skills in sustainable resource management for responsible use and conservation of soil, water, and forests.
CO4	Learn to assess environmental impacts from human activities and implement strategies to mitigate negative effects.
CO5	Understand environmental policies and ethical considerations that govern natural resource use and protection.

Syllabus of Courses : Elective-I for CSF, DM, AI-ML, Photo, Video, Animation

a) Course Name: Digital Banking and Insurance

b) Course Code:16010101UE02

c) Prerequisite: Foundational understanding of financial services, banking operations, and basic knowledge of insurance principles.

d) Rationale : The course aims to provide a comprehensive understanding of digital banking, including its importance, various channels, products, and associated risks. It also covers topics related to cards, ATMs, payment systems, innovation in insurance, digital insurance management, governance, regulatory frameworks, and global perspectives on digital insurance.

e) Course Learning Objective:

OBJ	Overview
OBJ1	To provide a comprehensive understanding of digital banking, its significance, delivery channels, products, payment systems, and associated risks.
OBJ2	To explore digital insurance innovations, management practices, governance, regulatory frameworks, and global perspectives in the digital financial ecosystem.

f) Course Learning Outcome:

CO	Description
CO1	Demonstrate knowledge of various digital banking products and their features.
CO2	Assess the risks associated with mobile and internet banking and suggest risk management strategies.
CO3	Analyze the different types of cards, ATMs, and payment systems offered by financial institutions.
CO4	Evaluate the impact of digital innovations on the insurance sector and compliance with regulatory frameworks.

g) Teaching and Examination Scheme

Teaching Scheme					Examination Scheme					
Lecture Hrs/Week	Tutorial Hrs/Week	Lab Hrs/Week	Seminar Hrs/Week	Credit	Internal Marks			External Marks		Total
					T	CE	P	T	P	
4	-	-	-	4	20	20	-	60	-	100

SEE - Semester End Examination, **T** - Theory, **P** - Practical

h) Course Content:

W - Weightage (%), **T** - Teaching hours

Sr.	Topics	W	T
1	**Digital Banking:** Introduction to Digital Banking – need and importance; Channels of Digital Banking; Digital Banking Products: Introduction and need. **Mobile Banking:** Overview, history, features, IMPS, frauds, and benefits. **Internet Banking:** History, products, corporate/individual use, integration with e-commerce, risks, tech/security standards, and legal issues.	25	15
2	**Cards:** Overview, types, EMV, NFC, Tap & Go, card issuance process, benefits, recovery & follow-up. **ATMs:** History, features, transfer systems, types (proprietary, brown/white label), value-added services, network planning (onsite/offsite), security, frauds. **Payment Systems:** Global and domestic systems, RuPay, IMPS, NUUP, RTGS, NEFT, NACH, AEPS, e-KYC, CTS, NFS.	25	15

Sr.	Topics	W	T
3	**Innovation in Insurance:** Financial services innovation, digital insurance trends, strategic choices, challenges, digital business models, security, compliance, 4 P's of insurance. **Management of Digital Insurance:** Digital model, corporate/online perspectives, marketing mix, economics, SWOT analysis, and frauds.	25	15
4	**Governance and Regulatory Framework:** Lean/digitized project management, data security, IRDAI regulations, policyholder protection, compliance support. **Global Digital Insurance:** Worldwide trends, AI, RPA, anticipatory computing, IoT, wearables, 5G, Web 2.0/3.0 futures.	25	15
	Total	100	60

i) Reference Books:

- **Digital Banking and Cyber Security** By Lohana Sarika R. — New Century Publications
- **Digital Payments in India: Background, Trends and Opportunities** By Singh Jaspal — New Century Publications
- **Digital Banking** By Indian Institute of Banking and Finance — Taxmann

Syllabus of Courses : Elective-I for CSF, DM, AI-ML, Photo, Video, Animation

a) Course Name:Basics of Event Management

b) Course Code:21010101UE02

c) Prerequisite: The students should have the basic knowledge about the events management.

d) Rationale : The course provides theoretical knowledge about the concept of management in event sector.

e) Course Learning Objective:

OBJ	Overview
OBJ1	The course provides theoretical knowledge about the concept of management in event sector.

f) Course Learning Outcome:

CO	Description
CO1	Understand & describe the functions of event management.
CO2	Describe the managerial functions in events.
CO3	Elaborate the importance of motivation & incentivization.

g) Teaching and Examination Scheme

Teaching Scheme					Examination Scheme					
Lecture Hrs/Week	Tutorial Hrs/Week	Lab Hrs/Week	Seminar Hrs/Week	Credit	Internal Marks			External Marks		Total
					T	CE	P	T	P	
4	-	-	-	4	20	20	-	60	-	100

SEE - Semester End Examination, **T** - Theory, **P** - Practical

h) Course Content:

W - Weightage (%), **T** - Teaching hours

Sr.	Topics	W	T
1	**Nature & Functions of Management in Events:** Importance, definition, functions in events, role of an event manager, management skills for event management.	10	6
2	**Development of Management Thought:** Early classical approaches, neo-classical approaches, modern approaches.	8	4
3	**Introduction to Planning & Decision Making in Events:** Nature & importance of planning, types of plans, meaning of decision, types of decisions, steps in rational decision making.	15	10
4	**Concept of Organising in Event:** Concept, nature, significance of organizing, formal and informal organization, organization chart of event company, types of organization: functional, line and staff relationship, delegation and authority, centralization and decentralization, recruitment – internal and external sources, steps in the process of selection, recruitment vs selection.	20	12

Sr.	Topics	W	T
5	**Directing & Leading in Events:** Meaning, nature, significance, characteristics of directing, chain of command, authority–responsibility–accountability relationship, elements of direction – supervision, communication, training and development, leadership, motivation. Leadership – meaning, importance, theories and styles. Communication – meaning, significance, types, process and barriers. Supervision – meaning, nature, and significance.	15	10
6	**Managerial Control in Events:** Meaning of managerial control, steps in control process, need for control system, benefits of control, control techniques.	18	10
7	**Motivation:** Meaning, nature and importance of motivation, morale incentives, motivation and productivity relationship, types of motivation, theories of motivation – Herzberg's two-factor theory, Maslow's hierarchy of needs, McGregor's Theory X and Theory Y.	14	8
	Total	100	60

i) Reference Books:

- **Principles of Management** By Tripathy P.C. and Reddy P.N. — Tata McGraw-Hill
- **Principles of Management** By B.S. Moshal
- **Special Events** By Joe Goldblatt
- **The Event Manager's Bible: The Complete Guide to Planning and Organising a Voluntary or Public Event** By D.G. Conway
- **Secrets to Successful Events** By Lynn Fuhler

15	Nested Loops	22/08/26	24/08/26	25/08/26	22/08/26	24/08/26
16	Break, Continue, Goto and Exit Statements	25/08/26	26/08/26	27/08/26	25/08/26	26/08/26
17	One Dimensional Arrays	27/08/26	29/08/26	29/08/26	27/08/26	29/08/26

Lec No.	Topic	A	B	C	D	E
18	Two Dimensional Arrays	29/08/26	31/08/26	01/09/26	29/08/26	31/08/26
19	Matrix Addition and Multiplication	01/09/26	02/09/26	03/09/26	01/09/26	02/09/26
20	Transpose of Matrix	03/09/26	05/09/26	05/09/26	03/09/26	05/09/26
21	Sorting Techniques	05/09/26	07/09/26	08/09/26	05/09/26	07/09/26
22	Searching Techniques	08/09/26	09/09/26	10/09/26	08/09/26	09/09/26
23	Introduction to Functions	10/09/26	11/09/26	12/09/26	10/09/26	11/09/26
24	Types and Categories of Functions	12/09/26	14/09/26	16/09/26	12/09/26	14/09/26
25	User Defined Functions	16/09/26	16/09/26	18/09/26	16/09/26	16/09/26
26	Function Arguments and Return Values	18/09/26	18/09/26	21/09/26	18/09/26	18/09/26
27	Recursion	21/09/26	22/09/26	23/09/26	21/09/26	22/09/26
28	Functions with Arrays	23/09/26	24/09/26	25/09/26	23/09/26	24/09/26
29	Scope, Visibility and Lifetime of Variables	25/09/26	26/09/26	28/09/26	25/09/26	26/09/26
30	Structures	28/09/26	29/09/26	30/09/26	28/09/26	29/09/26
31	Arrays and Nested Structures	30/09/26	01/10/26	03/10/26	30/09/26	01/10/26
32	Structures with Functions and Unions	03/10/26	03/10/26	06/10/26	03/10/26	03/10/26
33	Introduction to Pointers	06/10/26	07/10/26	09/10/26	06/10/26	07/10/26
34	Pointer Arithmetic	09/10/26	10/10/26	13/10/26	09/10/26	10/10/26
35	Pointers and Arrays	13/10/26	14/10/26	16/10/26	13/10/26	14/10/26
36	Pointers as Function Arguments	16/10/26	17/10/26	20/10/26	16/10/26	17/10/26
37	Introduction to Strings	20/10/26	21/10/26	23/10/26	20/10/26	21/10/26

Lec No.	Topic	A	B	C	D	E
38	String Operations	23/10/26	24/10/26	27/10/26	23/10/26	24/10/26
39	String Handling Functions	27/10/26	28/10/26	30/10/26	27/10/26	28/10/26
40	Introduction to File Handling	30/10/26	31/10/26	17/11/26	30/10/26	31/10/26
41	File Opening, Reading and Closing	17/11/26	18/11/26	19/11/26	17/11/26	18/11/26
42	Text and Binary File Operations	20/11/26	21/11/26	24/11/26	20/11/26	21/11/26
43	Command Line Arguments	24/11/26	25/11/26	27/11/26	24/11/26	25/11/26
44	File Functions (fprintf, fscanf, getc, putc, fgetc, fputc)	28/11/26	02/12/26	01/12/26	28/11/26	02/12/26
45	File Functions (fseek, feof) and Revision	03/12/26	05/12/26	04/12/26	03/12/26	05/12/26

Lab Plan – Programming in C (Course Code: 05010201DS02)

LP No.	Practical Description	A	B	C	D	E
1	Basic C Programs (Addition of Two Integers, Floating Point Numbers, ASCII Value of a Character, Quotient and Remainder)	23/07/26	21/07/26	22/07/26	23/07/26	21/07/26
2	Basic C Programs (Swap Two Numbers, Area of Circle, Simple Interest, Even or Odd Number)	31/07/26	30/07/26	31/07/26	31/07/26	30/07/26
3	Programs Using Expressions (Gross Salary, Total and Percentage of Five Subjects, Roots of a Quadratic Equation)	08/08/26	07/08/26	10/08/26	08/08/26	07/08/26
4	Looping Programs (Sum of Natural Numbers, Factorial of a Number)	18/08/26	17/08/26	19/08/26	18/08/26	17/08/26
5	Looping Programs (Fibonacci Series, GCD and LCM of Two Numbers)	26/08/26	25/08/26	27/08/26	26/08/26	25/08/26
6	Menu-Driven Programs Using Switch Case (Calculator, Area of Circle, Square and Sphere)	05/09/26	03/09/26	05/09/26	05/09/26	03/09/26
7	Decision and Pattern Programs (Palindrome, Prime Numbers Between Two Intervals, Perfect Number, Pyramid Pattern)	14/09/26	11/09/26	14/09/26	14/09/26	11/09/26
8	Functions and Arrays (Sum of 1D Array, Factorial Using Function, Addition of 2D Arrays)	24/09/26	21/09/26	24/09/26	24/09/26	21/09/26
9	Structures and Arrays of Structures (Employee Record, Student Structure Using Function)	03/10/26	30/09/26	03/10/26	03/10/26	30/09/26
10	Pointers (Variable Addresses, Swapping Numbers Using Pointers)	13/10/26	09/10/26	13/10/26	13/10/26	09/10/26
11	Pointers with Functions (Area and Perimeter of Rectangle, Array Operations Using Pointers)	22/10/26	20/10/26	22/10/26	22/10/26	20/10/26

Continued on next page

LP No.	Practical Description	A	B	C	D	E
12	Structures and Functions (Student Marks, Subject-wise Total and Grand Total, Student Details Using Structure)	31/10/26	30/10/26	31/10/26	31/10/26	30/10/26
13	String Handling (Reading Strings Using `scanf()` and `gets()`, Basic String Operations)	18/11/26	18/11/26	19/11/26	18/11/26	18/11/26
14	Integrated Programming Practice (Functions, Arrays, Structures and Pointers)	26/11/26	27/11/26	26/11/26	26/11/26	27/11/26
15	Lab Revision, Practical Examination and Viva	05/12/26	05/12/26	03/12/26	05/12/26	05/12/26

Lesson Plan –Fundamentals of Web Development (05010101DS03 (T))

LP No.	Lesson Plan Description	A	B	C	D	E
1	Introduction to Internet	20/07/26	21/07/26	22/07/26	20/07/26	21/07/26
2	Concept of Internet	22/07/26	23/07/26	24/07/26	22/07/26	23/07/26
3	Evolution and Specifications of Internet	24/07/26	25/07/26	27/07/26	24/07/26	25/07/26
4	Intranet and Extranet	27/07/26	28/07/26	29/07/26	27/07/26	28/07/26
5	Internet Applications (Email, Telnet and FTP)	29/07/26	30/07/26	31/07/26	29/07/26	30/07/26
6	Introduction to World Wide Web (WWW)	31/07/26	01/08/26	03/08/26	31/07/26	01/08/26
7	Static and Dynamic Web Pages	03/08/26	04/08/26	05/08/26	03/08/26	04/08/26
8	Server-Side and Client-Side Scripting Languages	05/08/26	06/08/26	07/08/26	05/08/26	06/08/26
9	Web Designing, Development and Publishing	07/08/26	08/08/26	10/08/26	07/08/26	08/08/26
10	HTTP, URL Registration, Browsers and Web Servers	10/08/26	11/08/26	12/08/26	10/08/26	11/08/26
11	Introduction to HTML	12/08/26	13/08/26	14/08/26	12/08/26	13/08/26
12	Basic Structure of HTML	14/08/26	17/08/26	18/08/26	14/08/26	17/08/26
13	HTML Document Structure	18/08/26	19/08/26	20/08/26	18/08/26	19/08/26
14	HTML Elements and Tags	20/08/26	21/08/26	22/08/26	20/08/26	21/08/26
15	Formatting Text Using HTML Tags	22/08/26	24/08/26	25/08/26	22/08/26	24/08/26
16	Headings, Paragraphs and Line Breaks	25/08/26	26/08/26	27/08/26	25/08/26	26/08/26
17	Lists in HTML	27/08/26	29/08/26	29/08/26	27/08/26	29/08/26

Table 109: Lab Plan Schedule

Lab No.	Lab Plan Description	A	B	C	D	E
1	Introduction to HTML and Basic HTML Programs (Print Name, Title, Bold, Italic, Underline, Break Tag)	23/07/26	21/07/26	22/07/26	23/07/26	21/07/26
2	HTML Text Formatting (Different Colors, Font Styles and Font Sizes)	31/07/26	30/07/26	31/07/26	31/07/26	30/07/26
3	HTML Headings, Superscript and Lists (Ordered, Unordered and Definition Lists)	08/08/26	07/08/26	10/08/26	08/08/26	07/08/26
4	HTML Horizontal Line, Preformatted Text and Hyperlinks	18/08/26	17/08/26	19/08/26	18/08/26	17/08/26
5	HTML Image Handling (Display Image, Image Border and Image in Browser)	26/08/26	25/08/26	27/08/26	26/08/26	25/08/26
6	CSS Basics (CSS Comments, Inline, Internal and External Style Sheets)	05/09/26	03/09/26	05/09/26	05/09/26	03/09/26
7	CSS Font Properties and CSS Selectors (ID, Class and Element Selectors)	14/09/26	11/09/26	14/09/26	14/09/26	11/09/26
8	CSS Image Insertion and Text Properties	24/09/26	21/09/26	24/09/26	24/09/26	21/09/26
9	CSS List, Margin, Padding and Border Properties	03/10/26	30/09/26	03/10/26	03/10/26	30/09/26
10	CSS Border Styles, Three-Sided Border, Thumbnail and Hyperlink Styling	13/10/26	09/10/26	13/10/26	13/10/26	09/10/26
11	HTML Tables and Table Formatting	22/10/26	20/10/26	22/10/26	22/10/26	20/10/26
12	Web Page Design Using HTML and CSS	31/10/26	30/10/26	31/10/26	31/10/26	30/10/26
13	HTML Form Validation and Complete Web Page Design	18/11/26	18/11/26	19/11/26	18/11/26	18/11/26

Continued on next page

Lab No.	Lab Plan Description	A	B	C	D	E
14	Integrated Practical (HTML, CSS, Tables, Images and Hyperlinks)	26/11/26	27/11/26	26/11/26	26/11/26	27/11/26
15	Lab Revision, Practical Examination and Viva	05/12/26	05/12/26	03/12/26	05/12/26	05/12/26

Lesson Plan –AI-ML (05010101AM01 (T))

LP No.	Lesson Plan Description	A	B	C	D	E
1	Introduction to Artificial Intelligence	20/07/26	21/07/26	22/07/26	20/07/26	21/07/26
2	Definition and Applications of AI	22/07/26	23/07/26	24/07/26	22/07/26	23/07/26
3	AI Techniques	24/07/26	25/07/26	27/07/26	24/07/26	25/07/26
4	Predicate Logic	27/07/26	28/07/26	29/07/26	27/07/26	28/07/26
5	Knowledge Representation Using Rules	29/07/26	30/07/26	31/07/26	29/07/26	30/07/26
6	Representing Simple Facts in Logic	31/07/26	01/08/26	03/08/26	31/07/26	01/08/26
7	Computable Functions and Predicates	03/08/26	04/08/26	05/08/26	03/08/26	04/08/26
8	Procedural vs Declarative Knowledge	05/08/26	06/08/26	07/08/26	05/08/26	06/08/26
9	Logic Programming	07/08/26	08/08/26	10/08/26	07/08/26	08/08/26

Lab Plan –AI-ML (05010101AM02 (P))

Lab No.	Lab Plan Description	A	B	C	D	E
1	Implementation of Basic Python Programs – I (Volume of Cuboid, Volume of Cube, Area of Rectangle, Area of Circle, Celsius to Fahrenheit Conversion)	23/07/26	21/07/26	22/07/26	23/07/26	21/07/26
2	Implementation of Python Operators (Arithmetic, Relational, Assignment, Logical, Bitwise, Membership and Identity Operators)	31/07/26	30/07/26	31/07/26	31/07/26	30/07/26
3	Implementation of Conditional Statements (if, if–else, if–elif–else)	08/08/26	07/08/26	10/08/26	08/08/26	07/08/26
4	Implementation of Looping Statements (while loop, for loop and nested loops)	18/08/26	17/08/26	19/08/26	18/08/26	17/08/26
5	Implementation of User Defined Functions in Python	26/08/26	25/08/26	27/08/26	26/08/26	25/08/26
6	Implementation of Python Math Functions	05/09/26	03/09/26	05/09/26	05/09/26	03/09/26
7	Implementation of Functions with Parameters, Arguments, Local Variables and User Defined Functions	14/09/26	11/09/26	14/09/26	14/09/26	11/09/26
8	Implementation of Fruitful Functions, Void Functions and Recursion	24/09/26	21/09/26	24/09/26	24/09/26	21/09/26
9	Implementation of List Operations (List Methods, Slicing, Map, Filter, Reduce and Delete Operations)	03/10/26	30/09/26	03/10/26	03/10/26	30/09/26
10	Implementation of Tuple Operations (Creation, Accessing, Updating, Deleting and Basic Operations)	13/10/26	09/10/26	13/10/26	13/10/26	09/10/26
11	Implementation of Set Operations (Sets, Set Methods and Frozen Sets)	22/10/26	20/10/26	22/10/26	22/10/26	20/10/26
12	Implementation of File Handling (Opening, Reading, Writing and Closing Files)	31/10/26	30/10/26	31/10/26	31/10/26	30/10/26
13	Implementation of Matplotlib for Data Visualization	18/11/26	18/11/26	19/11/26	18/11/26	18/11/26

Continued on next page

Lab No.	Lab Plan Description	A	B	C	D	E
14	Mini Practical Assignment (Functions, Collections and File Handling)	26/11/26	27/11/26	26/11/26	26/11/26	27/11/26
15	Lab Revision, Practical Test and Viva	05/12/26	05/12/26	03/12/26	05/12/26	05/12/26

Details of Value-Added Courses and Professional Courses

Sr. No.	Name of Course	Prof. Name	Registration Link
1	Introduction to UI/UX	Dr. Ramchandran	Registration Form

227851 – Introduction to UI/UX

Course: BCA / B.Sc. (IT) / IMCA Semester–3

Prerequisite

Students should have basic knowledge of computer fundamentals and be comfortable using digital devices, web, and mobile applications. An understanding of basic software interfaces and user interaction concepts will be beneficial. No prior experience in UI/UX design is required; however, an interest in creativity, design thinking, and user-centered problem solving is expected.

Rationale

This course provides foundational knowledge of UI/UX design, enabling students to create user-friendly and visually appealing digital products. It emphasizes user-centered design, usability, and accessibility through practical activities and real-world case studies. The course prepares students for industry roles by developing design thinking, prototyping skills, and portfolio-based project experience.

Course Content

Sr.	Topics	Hrs.
1	**Module 1: Foundations of UI/UX** • UI & UX – Difference between User Interface and User Experience • Importance of UI/UX in digital products • Real-life examples of good and poor UI/UX • **Lab Work:** Review three applications and identify three good and three poor design choices.	4
2	**Module 2: User-Centered Design** • Understanding user needs and behaviors • Basics of user psychology in design • User research methods: surveys, interviews, observations • User personas • Journey mapping • **Lab Work:** Create a persona and journey map for an e-commerce application.	5

Continued on next page

Sr.	Topics	Hrs.
3	**Module 3: Visual Design and UI Elements** • Principles of visual design: colors, typography, icons, spacing, balance • Layout and alignment • UI components: buttons, forms, navigation bars, modals • Design systems and consistency • **Lab Work:** Redesign a poorly designed form or application screen.	5
4	**Module 4: Wireframing and Prototyping** • Low-fidelity and high-fidelity wireframes • Introduction to Figma and Adobe XD • Creating wireframes from sketches to digital mockups • Interactive prototypes • **Lab Work:** Build a wireframe and prototype for a mobile login and dashboard flow.	5
5	**Module 5: Usability, Testing and Accessibility** • Usability principles • Usability testing methods • Accessibility in UI/UX • Inclusive design • **Lab Work:** Test classmates' prototypes and provide usability feedback.	5
6	**Module 6: Trends, Tools and Career Pathways** • Current UI/UX trends • Case studies of successful applications • Career opportunities in UI/UX • **Lab Work:** Present wireframes, prototypes and case studies.	3
7	**Module 7: Capstone Project** • Design a complete UI/UX solution for a small application such as a food delivery app, learning portal or portfolio website.	3
	Total	**30**

Reference Books

1. **Don't Make Me Think** – Steve Krug.
2. **The Design of Everyday Things** – Don Norman.
3. **Lean UX** – Jeff Gothelf.
4. `https://www.figma.com`

Course Outcomes

After successful completion of this course, students will be able to:

1. Understand the principles of UI/UX design and the importance of user-centered approaches in digital product development.

2. Analyze user needs and behaviors using techniques such as user personas and journey mapping.
3. Design effective user interfaces by applying visual design principles, wireframing, and prototyping using tools such as Figma or Adobe XD.
4. Evaluate and improve digital interfaces through usability testing, accessibility considerations, and real-world project implementation.

		Prof. Yadagiri Rama Deepak Mob: 9494075286 Email: rama.yadagiri35463@paruluniversity.ac.in

Co-curricular and Extra-curricular Events During the Semester

CSR Activity (Monthly Basis):
Each Department must plan **minimum one CSR activity** on a monthly basis.

No.	Name of Activity	Defined Month/Day
1	Computer Literacy Program - Raval Village	Every 2nd and 4th Tuesday
2	International Youth Day (HP)	09/08/2026
	Gender Equality Day (SC)	14/08/2026
	World Humanitarian Day (AP)	19/08/2026
	Technical Event – TEC (MT)	29/08/2026
	National Sports Day (MP)	29/08/2026
	Alumni Meet (FRK, PP)	02/09/2026
	Teachers Day (KK)	05/09/2026
	National Hindi Divas (SK)	14/09/2026
	NSS Day Celebration (SP)	24/09/2026
	Digital Literacy & Cyber Safety Awareness Day (Aniket)	26/09/2026
	Financial Literacy Session (AKS)	29/09/2026
	Photography Contest (TS)	01/10/2026
	AI for Beginners (NS)	06/10/2026
	Swachh Campus Initiative (SP, HP)	10/10/2026
	Quiz Competitions (SR)	14/11/2026
	Photography Contest (TS)	01/10/2026

Library-Self Study Activities:

- Pick and Write Event
- Session for E-Resources Awareness

Details of Visits Planned During Semester

- **Note:** For Semester 1, industrial visits will not be conducted this term. As per academic planning, they will be scheduled in the following semester.

Details of Workshop During the Semester

No.	Title of Workshop	Planned Date
1	Web Designing & C Programming workshop	1st Week of Aug 2026
2	Subject-wise Faculty Workshop	1st Week of September 2026
3	Seminar on IPR	2nd Week of Aug 2026
4	Activity on Tolerance and Harmony towards Cultural, Regional, Linguistic, Communal, Socio-economic	4th Week of Sept 2026
5	Activity on Constitutional Obligations, Values, Rights, Duties, and Responsibilities of Citizens	1st Week of September

Details of Expert Talks During the Semester

No.	Name of Expert	Expert Affiliation	Sem	Related Subject	Planned Date
1	Dr. Harshika Rana	Data Analyst, Rishabh Software, Vadodara	1	FOP	2nd Week of September
2	Mr. Manish Vala	SSN Infotech, Surat	1	FOC	3rd Week of September

3	Prof. Karuna Patel	Assistant Professor, MSU, Vadodara	1	FOW	4th Week of September

Flagship Events of Concerned Institute, Faculty and University

No.	Title of Seminar	Planned Date
1	International Conference	4th Week of July 2026
2	Udaan	4th Week of August 2026

Prominent academic competition (Outside PU)

EXAMINATION RULES & REGULATIONS FOR STUDENTS:

If any examinee is violating university rules, he/she is liable to be punished under the provisions of the University rules.

- A candidate has to check the bar-code to be pasted by the supervisor on the front page of his answer book.
- Enter your enrolment number, subject code, date of exam etc. in the given space.
- Students should ensure that any objectionable material leading to a UFM case is not lying around his/her seat prior to the start of the examination, and it will be the sole responsibility of the student to inform the supervisor.
- A disciplinary action will be taken against the candidate who disobeys the instructions of the supervisor or misbehaves or violates the code of conduct of examination of Parul University.
- All unused answer books and other University examination materials must be handed over to Supervisor and must **NOT** be taken from the room.
- Hollow sticker should be pasted after the warning bell on the appropriate space on the front page of the answer book, covering the information filled up by the candidate and the bar-code label.
- There will be a warning bell 10 minutes before the completion of the examination.
- If you need to do any rough work, use the back of the page(s) of your answer book(s) and either cross out the rough work or mark it clearly as such before submitting your script; you may not use paper of your own for rough work.
- No candidate will be allowed to leave the examination hall before 45 minutes after the commencement and during the last 15 minutes of the examination session.
- Do not leave your seat under any circumstances without the prior permission of the supervisor.
- Do not write anything in the space provided for marks.
- Write relevant answers of the questions in clear and legible handwriting on both sides of the answer book in respective Section-A and Section-B.
- Begin a new answer on a separate page.
- Please read the instructions at the top of your paper, and make sure you understand and follow them.
- Under no circumstances will the candidate be allowed to enter the examination hall after commencement of the examination.
- Please check that you have the correct examination paper and that your copy is complete.
- Do not write your name or number or sign in the answer book which reveals your identity.

- A candidate has to check the bar-code to be pasted by the supervisor on the front page of his answer book.
- Enter your enrolment number, subject code, date of exam, etc. in the given space.
- Students should ensure that any objectionable material leading to a UFM case is not lying around his/her seat prior to the start of the examination, and it will be the sole responsibility of the student to inform the supervisor.

PARUL UNIVERSITY
WAGHODIA, VADODARA

No: PU/EXAM/Functions/2015/5 **Date: 18/08/2015**

Instructions to Examinees/Candidates

1. All candidates must occupy their seats in the exam hall before half an hour of the commencement of the examination time.
2. Students should ensure that any objectionable material leading to a UFM case is not lying around his/her seat prior to the start of the examination, and it will be the sole responsibility of the student to inform the supervisor.
3. Enter your enrollment number, subject code, date of exam, etc. at the appropriate location.
4. A candidate has to check the barcode to be pasted by the supervisor on the front page of his answer book.
5. Do not write your name or number or any sign in the answer book which reveals your identity.
6. Please check that you have the correct examination paper and that your copy of it is complete.
7. Under no circumstances will the candidate be allowed to enter the examination hall after commencement of the examination.
8. Please read the instructions at the head of your paper and make sure you understand and follow them.
9. Begin a new answer on a separate page.
10. Write relevant answers to the questions in clear and legible handwriting on both sides of the answer book in respective Section-A and Section-B.
11. Do not write anything in the space provided for marks.
12. Do not leave your seat under any circumstance without the prior permission of the supervisor.
13. No candidate will be allowed to leave the examination hall after the commencement of the examination till 45 minutes and during the last 15 minutes of the examination session.
14. Students may not leave the examination room (except when they have finished their examination). If the medical condition appears serious and the student is not able to resume the exam, the Jr. Supervisor should call Security and request medical assistance. In this case, the student may be able to resume the examination.

15. If you need to do any rough work, use the back page(s) of your answer book(s) and either cross through the rough work or identify it clearly as such before handing in your script; you may not use paper of your own for rough work.
16. It is the students' responsibility to make sure their calculators are working and have fresh batteries. Students are neither permitted to share calculators nor to pass them between each other during an examination. Use of a non-permissible type of calculator or other electronic device will be regarded as cheating.
17. If any objectionable material related to the exam or mobile phone or programmable calculator is found with a candidate, or if found exchanging answer book/question paper with another candidate, he/she will be immediately expelled and final punishment will be imposed once the matter is taken up by the authorities.
18. There will be a warning bell 10 minutes before the completion of the examination.
19. Hollow sticker should be pasted after the warning bell at the appropriate place on the front page of the answer book, covering the information filled up by the candidate and the barcode label.
20. All unused answer books and other University examination materials must be handed over to the Supervisor and must **NOT** be taken from the room.
21. Disciplinary action will be taken against the candidate who disobeys the instructions of the supervisor or misbehaves or violates the code of conduct of examination of Parul University.
22. If any examinee is violating university rules, he/she is liable to be punished under the provisions of the University rules.

- Controller of Examination

Centre for Distance and Online Education (CDOE)

Backdrop

The Centre for Distance & Online Education (CDOE) at Parul University is committed to democratizing access to quality higher education by leveraging flexible, technology-enabled learning modes. Our mission is to empower learners—especially working professionals, remote learners, and lifelong learners—with UGC-approved, digitally delivered programmes that maintain the highest academic standards.

Key Features & Strengths

- **UGC-Recognized & Regulated:** The programs offered under CDOE comply with UGC (OL & ODL) regulations, ensuring equivalence with regular-mode degrees.
- **NAAC A++ Accredited University:** Parul University's institutional reputation adds strength and credibility to its distance and online program offerings.
- **Diverse Program Portfolio:** CDOE offers a wide range of undergraduate and postgraduate online and distance programs—spanning Arts, Commerce, Science, Management, Computer Applications, and more.
- **Flexible Learning Mode:** Examinations for online learners are conducted in online mode to suit remote learners.
- **Scholarship & Dual Degree Options:** Offered programs include scholarship options and dual degree opportunities to maximize value for students.
- **Global & Virtual Exposure:** Through virtual classrooms and global exchange programs, learners gain exposure to international perspectives and best practices.

Why Choose CDOE, Parul?

- **Accessibility & Convenience:** Learn from anywhere, anytime, without needing to relocate to campus.
- **Quality & Credibility:** Degrees awarded are recognized and equivalent to traditional formats under UGC norms.
- **Industry-Relevant Curriculum:** Programs are designed to meet evolving industry needs, with input from domain experts and faculty.
- **Learner Support & Resources:** Digital libraries, faculty mentors, technical support, and online study materials ensure smooth learning experiences.
- **Career Advancement & Upskilling:** Ideal for professionals aiming to progress in their careers without interrupting work commitments.

Parul University Alumni Association

The Parul University Alumni Association (PUAA) proudly represents a global family of over 80,000 alumni across 38 constituent institutions, creating a lifelong network that connects graduates with their peers, mentors, and the University. PUAA serves as a bridge between the past and the present, fostering collaboration, mentorship, and professional growth while celebrating the achievements of our alumni community across the world.

Through its various initiatives, PUAA promotes knowledge sharing, career development, entrepreneurship, social impact, and global engagement, empowering every alumnus to contribute towards building a more innovative and inclusive future.

Our Chapters: Strengthening Global Bonds

PUAA has established 08 National and 25 International Alumni Chapters that act as local hubs of networking, mentorship, and collaboration, with many more upcoming chapters set to expand and enrich our global alumni network.

National Chapters:

- Vadodara Chapter,Ahmedabad Chapter, Rajkot Chapter, Surat Chapter, Udaipur Chapter, Navsari Chapter, Hyderabad Chapter, Pune Chapter, Mumbai Chapter, Dahod Chapter

International Chapters:

- New Jersey Chapter – USA, Texas Chapter – USA, London Chapter – UK, Berlin Chapter – Germany , Paris Chapter – Franc, Bhutan Chapter, Nepal Chapter, Zimbabwe Chapter, Uganda Chapter, Kenya Chapter, Zambia Chapter, Lithuania Chapter, Dubai Chapter – UAE, Mozambique Chapter, South Sudan Chapter, Madagascar Chapter, Gambia Chapter, Guinea Chapter, Nigeria Chapter, Niger Chapter, Tanzania Chapter, Ethiopia Chapter, Cameroon Chapter, Ghana Chapter, Ivory Coast Chapter

Each chapter promotes cultural exchange, professional opportunities, and university pride, reinforcing Parul University's global presence.

Student–Alumni Engagement Initiatives

PUAA actively bridges the gap between students and alumni through various programs focused on learning, growth, and career development.

- **Alumni Talk Series:** Alumni from diverse industries regularly visit the campus or connect virtually to share insights, experiences, and professional guidance with current students.
- **ASMP – Alumni Student Mentorship Program (Industry Connect):** A structured initiative pairing students with alumni mentors for personalized career guidance, higher

education support, and skill development.

- **HR Connect:** Alumni working in HR, recruitment, and corporate sectors collaborate with the University to provide placement opportunities and industry exposure.
- **Alumni Webinars & Industry Panels:** Interactive sessions where global alumni discuss emerging trends, innovation, and career paths.
- **Entrepreneur Connect:** Alumni entrepreneurs inspire students to explore startup ideas, innovation, and business leadership.
